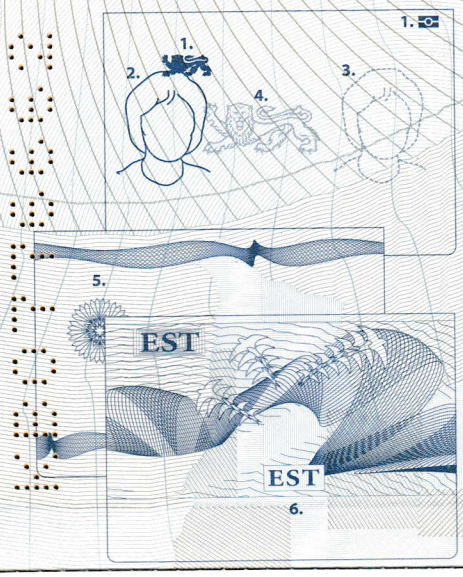
A Guide to check the security features of the data page



1. Optically variable ink "turquoise to lilac" (lion) and "gold to green" (ePassport symbol). Optically variable ink changes colour depending upon the angle at which it is viewed.
2. Image of the passport holder.
3. Perforated image of the passport holder. Visible when held against a light source.
4. Watermark in multiple grey tones. Visible when held against a light source.
5. Elements in the background visible only in UV-light. After being exposed to UV-light a cornflower depiction in the area of image of the passport holder and words "EESTI ESTONIA" in three parallel wavy lines across the page will occur in blue colour for some time in normal light.
6. In the foil appear kinematic effects that change colour and form or appear to move when tilted at different angles. In rectangle letters "EST" and background change from positive to negative when rotated 180° in its plane.
